

MICHIGANDERS, SHALL WE CONTINUE TO REBEL OR REPENT?

Here is what we have progressively done as a state and nation in becoming a modern Babel and Sodom:

- April 2023: Governor Whitmer signs law repealing Michigan's 1931 abortion ban.
- March 2023: Governor Whitmer signs law codifying so called "LGBTQ protections", which prohibits restriction of "expression of those who are non-binary, gender-fluid or who perform in drag."
- December 2022: Federal Congress codifies so called "gay marriage" into federal law.
- November 2022: Michigan voters lock legalized abortion into state constitution.
- July 2022: Michigan Supreme Court mandates so called "LGBTQ rights".
- 2020: Federal Supreme Court mandates so called "LGBTQ rights" in all 50 states.
- 2015: Federal Supreme Court mandates so called "gay marriage" in all 50 states.
- 1987: Federal Supreme Court mandates public schools may not teach creationism alongside the evolutionary view.
- 1973: Federal Supreme Court mandates legalized abortion in all 50 states, overturning Michigan law at the time. (In 2022 this decision was reversed, but by then in Michigan most people wanted it legalized.)
- 1971: Michigan passes liberalizing no-fault divorce law, and Michigan's divorce rate doubles in the aftermath.
- 1962: Federal Supreme Court outlaws school-led prayers in public schools on secular humanist grounds.
- 1835: Michigan enacts its first state constitution recognizing the secular humanist Federal Constitution rather than the Christian Articles of Confederation as our national constitution.
- 1789: The USA illegally abandons its original Christian constitution and begins government under the new secular humanist Federal Constitution.
- 1787: Northwest Ordinance stipulates that states created from within the Northwest Territory will recognize the Articles of Confederation as the national constitution. Michigan should have followed this ordinance when it became a state.
- 1776: The USA is formed and its original Christian constitution (the Articles of Confederation) is written and soon adopted.

Here are some of the impending implications of our increasing rebellion against God:

- People who do not go along with the "LGBTQ" ideology will be pressured to speak consistent with it or face adverse legal and employment consequences.
- Biological men can now go into areas historically reserved for women, whether women's restrooms, athletic activities, or prison cells, such that increased rapes and other ill consequences become more likely.
- Christian institutions will be legally pressured to accept "LGBTQ" personnel and the propagation of their ideology.
- Public and private schools will promote "transgender" surgery and hormone treatment of children without even parental consent, such as described in the book *Irreversible Damage: The Transgender Craze Seducing Our Daughters*.
- California is becoming the model every other state is to follow in law and practice. This includes a precipitous rise in sex trafficking since authorities have lost much of their ability to curb prostitution, along with rampant theft.
- The state of Michigan departed from its Christian moorings, and the rest are the symptoms of this fundamental state sin. We have become a state of anti-Christian rebels against God, promoting murder, sexual perversion, theft, etc.

Individually and corporately we need to repent, for in truth we all bear responsibility in this moral declension. Please join an effort seeking a Christian amendment to our Michigan constitution, including recognition of our original Christian national constitution, the Articles of Confederation. Contact J. Parnell McCarter at puritansinfo@gmail.com or visit the website
