SECTION ONE: COURSE INSTRUCTIONS
Purpose

*Patrick, Apostle to Ireland* provides students with an understanding of Patrick, the times in which he lived, and the effect of his life upon Ireland. Patrick in many ways is a model of Christian character, having been redeemed through Jesus Christ. He was greatly responsible for establishing Celtic Christianity in Ireland, which long rivaled Roman Christianity.

Check-Off List

Students should record when they have completed tests on their check-off list, and teachers should record test scores on the check-off list. A master of the check-off list has been included in this manual, from which copies can be made and distributed to students. A chart is supplied in order to translate scores (based upon a 100-point scale) into grades (ranging from A+ to F).

Maps

At the beginning of this mini-course the teacher should review with students maps of Britain and Ireland so students understand the locations discussed in the readings. Two maps have been provided in the teacher’s manual, but they should be supplemented with others as well. Even modern maps are satisfactory.

Tests and Answer Keys

This teacher’s manual contains tests and answer keys for the course. The tests may be taken by students in ‘open book’ fashion or ‘closed book’ fashion, according to the decision of the teacher. The teacher may decide to administer some of the tests to students in ‘closed book’ fashion (not allowing the student to read the textbook while taking the test), while others are administered in ‘open book’ fashion.

Grading

The average grade of the tests should be calculated in order to determine the overall grade for the course.

In order to determine how many points each question in a chapter test is worth, divide 100 by the number of questions in the test. For example, if there are 10 questions in a test, then each question is worth 10 points (= 100 / 10). So if a student got 9 out of the 10 questions right, then his test score is 90 (= 9 x 10). His letter grade, according to the table above, would then be an A-.
